

## CURRICULUM VITAE

### INFORMAZIONI PERSONALI

Name	SALME' Giulio
Date og Birth	20/10/1980
Qualification	Chief of Radiology Dept.
Administration	S.C. Radiologia Savigliano
Current poition	Chief of Radiology
Office phone numbere	0172 - 719395
Fax dell'ufficio	
Institutional e-mail	<a href="mailto:giulio.salme@aslcn1.it">giulio.salme@aslcn1.it</a>

### ACADEMIC QUALIFICATIONS AND PROFESSIONAL EXPERIENCE

Degree	Degree in Medicine and Surgery (MD)
Other professional and educational qualifications	Master's degree in Radiodiagnostic
Professional Experience (position held)	<p>08/08/11-07/31/12 Specialist consultant with the qualification of medical executive of first level at S.C. Radiologia of Umberto Parini Hospital in Aosta, led by Teodoro Meloni MD.</p> <p>08/01/12-02/01/13 Medical executive of first level at the above mentioned Hospital under permanent full-time contract. The trial period ended on 02/01/13.</p> <p>08/08/11-09/07/14 Perform diagnostic emergency activity at ER of II level, especially for the management of polytrauma and high kinetic traumas, as well as the routine activity of urgency and emergency coming from the ER and the other medical-surgical departments of the Hospital; Take part in the CT Scan activity work, that consist of about 20000 exams per year, the 48% of which was carried out in emergency regime; The above mentioned CT Scan Emergency activity consist of a 74% rate of exams requested by ER and a 26% rate of urgent exams requested by the different Hospital departments;</p>

	<p>Take part in the Traditional radiologic activity work that consist of about 70000 exams per year, a 54% of which requested in emergency regime;</p> <p>Take part in the diagnostic ultrasound activity work that consists of about 13000 exams per year, a 30% rate of which requested in emergency regime;</p> <p>On the total amount of 110000 exams per year, the 45% rate was carried out in emergency regime; the 80% of which requested by ER (the above mentioned data concerned the year 2012; for the year 2013 the data analysed through November and sent to the Department Board showed a total increase of the activity of about 8,86% and a 4,2% rise of those exams requested from ER);</p> <p>Take part to the Department activities concerning Traditional Radiology and Ultrasound Imaging both at the headquarters and on regional departments;</p> <p>Perform abdominal MRI diagnostic activity, in particular: MRCP, MRI of the Liver, MRI of the Pancreas, MRI of Adrenal Glands, MR Enterography, MRI of the lower Abdomen in order to carry out an oncologic study ( rectum, uterus and adnexa) and an evaluation of endometriosis;</p> <p>Among 08/09/14 and 31/08/2022</p> <p>Take service with the same position starting at the S.C. Hospital Radiology led by Ottavio Davini MD, Città della Salute e della Scienza of Turin, Molinette Hospital.</p> <p>Perform ER diagnostic radiological activity works, through Traditional Radiology, Ultrasound and CT Scan.</p> <p>Collaborate with the Stroke Unit, the Cardiology and Cardiovascular Surgery Unit of the University at the S.C. Hospital Radiology, particularly in relation to CT Scan, with special attention to the vascular study of heart, epiaortic vessels, aorta, arterial supra-aortic trunk and of intracranial circulation.</p> <p>(Since December 2015) Perform MRI activity work in the above-mentioned Hospital, with special attention to emergency exams especially those of neuroradiologic interest:</p> <ol style="list-style-type: none"> <li>1. Emergency MRI on myelic patient, with a suspect of Venous Sinus Thrombosis and for the study of central nervous system disease;</li> <li>2. MRI exam for those patients affected by demyelinating disease;</li> <li>3. MRI exam in the diagnosis and the follow-up of patients suffering from primary and secondary encephalic and spinal cord neoplasm; MRI exam in the diagnosis and the follow-up of patients suffering from primary and secondary bone marrow and pelvic diseases.</li> </ol> <p>The MRI activity also consists in investigating those areas concerning the study of abdomen, neck and degenerative/articular disease of spinal column.</p> <p>Since 17 January 2017</p> <p>Take part to the Hospital GIC for oncologic disease concerning the Colon-Rectum and secondary liver lesions.</p> <p>Since 15 March 2017</p> <p>Start the study activity in collaboration with the members of the</p>
--	--

		<p>Oncologic Network of Piedmont and Aosta Valley region (O. Bertetto MD, P. Racca MD) in order to update the hospital PDTA (Diagnostic and therapeutic pathway) on the diagnosis and treatment of the Colorectal neoplasia.</p> <p>Since January 2018 Official member of the study group "Oncologic Network of Piedmont and Aosta Valley region" on Colorectal cancer.</p> <p>11/19- 12/20 Perform Radiologic routine activity and in emergency regime as consultant at ASL AL, mainly at Radiology S.C. of Santo Spirito Hospital in Casale Monferrato.</p> <p>11/20-01/21 Perform radiologic routine activity and in emergency regime as consultant at the Diagnostic and Interventional Radiology of AO AL, SS. Antonio e Biagio e Cesare Arrigo Hospital, led by S. Barbero MD.</p> <p>Since April 2021 Perform emergency radiologic activity as consultant at ASL TO3, mainly at Presidio Ospedaliero degli Infermi in Rivoli, led by F. Marchisio MD.</p> <p>Since June 2021 Perform independent professional activity as consultant through an agreement drawn up with the A.O.U. Città della Salute, at the multi-speciality practice LARC of Pinerolo(TO), in order to perform Ultrasound, MRI and routine X-ray activity.</p> <p>Since 01 Sept 2022 Take Service As Chief of Radiology Department of ASL CN 1, Savigliano -Saluzzo - Fossano, Cuneo.</p>
Language skills		Knowledge of English language.
Ability to utilize technologies		<ul style="list-style-type: none"> <li>• Good knowledge of Windows and iOS.</li> <li>• Use of GE CT Scan Machine 16, 64, 128 and 256 slice, GSI technology.</li> <li>• Use of 4.2 GE Advantage console for reconstruction and following models.</li> <li>• Use of PACS Syngo stations (Siemens BARCO support)</li> <li>• Use of RIS RA2000 for Siemens</li> <li>• Use of Carestream PACS stations on O3DPACS platform.</li> <li>• Use of Fuji PACS stations and Barco related console.</li> <li>• Use of RIS Trackcare</li> <li>• Use of Fenix RIS system and SPECTRA PACS</li> <li>• Use of GE Signa 1.5T MRI and the related GE Advantage 4.4.</li> <li>• Experience with Philips Achieva 1.5T MRI and the related reporting consoles.</li> <li>• Experience on Philips CT Scanner</li> <li>• Experience on Esaote, GE and Philips ultrasound systems</li> </ul>
Others (attendance at conferences)		Attendance to the following conferences and meetings as auditor:

<p>and meetings, professional publications , collaboration with magazines, ect, and any other information of interest)</p>	<p>High-risk proliferative lesions and DCIS, G. Mariscotti MD – Turin, 7 October 2006 Radiology lecture room at the University;  Movie Interventional, the Interventional Radiology in slow motion, G. Gandini MD, PhD – Turin, 4 and 5 June 2007, Radiology lecture room at the University;  Liver and biliary tract cancer, S. Cirillo MD – Turin, 9 June 2007, Radiology lecture room at the University;  Critical points in Radiology, B. Mecozzi MD - Turin, 12 May 2007 Radiology lecture room at the University;  Ankle and foot, C. Faletti MD – Turin, 22 September 2007 Radiology lecture room at the University;  International Course of Endovascular Procedures, G. Simonetti MD, PhD– Rome 27-29 September 2007 Tor Vergata University Hospital;  Spinal canal, vertebral column and spinal cord G.B Bradac MD, PhD – Turin, 27 October 2007, Radiology lecture room at the University;  The respiratory tract, C. Fava MD, PhD – Turin, 17 November 2007, Radiology lecture room at the University;  The “giovane Piemonte nel III millennio”, G. Gandini MD, PhD – Turin, 15 December 2007 - Radiology lecture room at the University;  The imaging of dental-periodontal pathology and rehabilitation therapy, S.D. Bianchi MD, PhD – Turin, 29 January 2008, Radiology lecture room at the University;  Virtual Course of Interventional Radiology, percutaneous treatments of atheropathy of the lower extremities T. Meloni MD – Aosta, 4 and 5 April 2008, Milleluci Hotel;  Cardiovascular and Interventional Radiological Society of Europe, C.F.A.C. J. Lammer – Florence, 9-12 April 2008;  Movie Interventional, the Interventional Radiology in slow motion, G. Gandini MD, PhD – Turin, 9-10 June 2008, Radiology lecture room at the University;  Fusion Imaging School, L. Solbiati MD – Busto Arsizio, 10-12 September 2008, Circolo Hospital of Busto Arsizio, Radiodiagnostic S.C.;  International Course of Endovascular Procedures, G. Simonetti MD PhD – Rome, 2-4 October 2008, Tor Vergata University Hospital;  The interventional radiology in emergencies/ urgencies, C. Fugazzola MD, PhD– Varese, 23-24 October 2008, Insurbia University;  Functional circle of the lung, C. Fava MD, PhD – Turin, 29 October 2008, Radiology lecture room at the University;  “ Il giovane Piemonte nel III millennio”, G. Gandini MD, PhD – Torino, 20 December 2008, Radiology lecture room at the University;  Thoracic Endoprosthesis: acquired experiences and future perspectives – Genova, 16-17 January 2009, Palazzo ducale.  The correct reporting, theory and practice, C. Fava MD PhD – Orbassano (TO), 4 April 2009, University Hospital San Luigi Gonzaga;  III virtual course of Interventional Radiology, endovascular treatment of abdominal aortic aneurysms, T. Meloni MD – Aosta, 8-9 May 2009, Milleluci Hotel;  Post-graduate Training in Urogenital Radiology R. De Lucchi MD – Turin, 16 May 2009, Radiology lecture room at the University;  Movie Interventional, the Interventional Radiology in slow motion, G.</p>
